The award-winning Britannica Academic edition delivers fast and easy access to high-quality, comprehensive information. The rich combination of the *Encyclopædia Britannica* plus *Merriam-Webster's Collegiate Dictionary*, magazines and periodicals, e-books, primary source documents, multimedia resources, and many other databases and research tools provides the variety of reliable sources that students need to consult when conducting thorough research.
Britannica users can find a wide variety of content on the results page of every search. In addition to the Articles tab, you'll find tabs for Britannica's large collection of Images and Videos, the Merriam-Webster Collegiate Dictionary, Journals and Periodicals (courtesy of EBSCO), our curated collection of Web sites called Web's Best Sites, Primary Sources and E-books, and Year in Review articles. Simply click on any of the tabs to see the corresponding information.

In every article there are many tools and functions, including the ability to add resources to My Research, print, e-mail, automatically cite, translate, and a read aloud feature.
My Research is an easy way to keep track of the Britannica content that you find during your research. Click on the star in any article, photo, video, and Primary Source in Britannica. That piece will be added to your collection of “Favorites.” You can also create Resource Packs to organize the information you collect. Finally, you can share your Resource Packs with students or library patrons. My Research is a great tool for teachers, librarians, and students.

My Research Account Set Up

Click on “My Research Login” in the top right corner of any page in Britannica Academic.

Fill in the required information and click on the OK button in the lower right corner. Now you are ready to collect Britannica information and create Resource Packs to share with others.

When the Login box opens up, click “Sign up now!” at the bottom to create your My Research account.
