

# Activity: Making Predictions

Name:

Grades: 6-12

## Instructions

Before studying these resources, preview the parts you can see. Then, use what you previewed to predict what you will learn. Finally, investigate more closely to find out how accurate your prediction was.

## Questions

Preview the titles, headings, and images of the resources in this Pack. Then, before opening any of them, answer this question: What do you predict you will learn from this Pack?

Now study the resources in this Pack. How correct was your prediction?

What evidence in the resources supports the accuracy of your prediction? What evidence challenges the accuracy of your prediction?

What did you learn that surprised you?

What new words or phrases helped you better understand this topic? Explain your thoughts.

What new questions do you have?

How might you find answers to your new questions?
